

Who doesn't know it? The tangle of fairy lights!

Do you know this? Every year you untangle the tangle of fairy lights or give up and buy a new one. After Christmas, you throw everything back into a box and are faced with the same tangled mess next Christmas.

There is another way! The confusion is gone!

With WIRRwAR[®] there was confusion!

We have the solution!

The sustainable cable and fairy lights winder.

WIRRWAR[®] saves you time and spares your nerves when decorating for Christmas. With WIRRWAR[®], your fairy lights and cables can be wound and unwound easily and without knots. At the same time, WIRRWAR[®] is finally the storage solution that protects your fairy lights and cables and thus extends their shelf life.

For significantly more Christmas harmony!

Made in Austria

Development, design and production in our traditional, innovative family-owned company in Austria.

SUSTAINABLE

The rewinder is made from 100% recycled materials and is designed to be stable and sustainable. It is manufactured using renewable energy.

YOUR INDIVIDUAL PRINT

On request, customised advertising prints can also be made, e.g. with your company logo.

CABLE/PLUG CLAMP

Cables of different thicknesses and plugs can be clamped - no loose ends!

STABLE HANDLE

Holds firmly when unwinding.

SAFE HOLDING

The coiled loop will not slip off.

PATENTED PLUG SYSTEM

Several rewinders can be stably combined into one rewinder and can therefore also be used for fairy light loops.

The 3-set gift box.

The special 3-pack gift box makes the rewinders an appreciated and practical gift.

Also available with your personalised imprint on request.

Surprise with an aha moment. Surprise your family, friends or business partners.

A personal message can be written on a blank space inside the box.

WIRRWAR®

Sustainability is very important to us. We produce in Austria in our traditional and innovative third-generation family-owned company, under fair conditions and according to high environmental standards. We use renewable energy for production and use 100% recycled plastic, which is produced in our own granulate mill.

And: fairy lights live longer!

Unser Beitrag zum Umwelt- und Klimaschutz

Teko-plastic Kunststoffwerk E. Schröck GmbH
konnte durch die Zusammenarbeit mit Interseroh im Jahr 2021
4.105 Kilogramm
Treibhausgasemissionen und
29.871 Kilogramm
Ressourcen einsparen!

Quality.
